

## CITIZEN TREE PLANTING PROGRAM

To encourage the planting of quality street trees throughout Kettering, the Parks, Recreation and Cultural Arts Department will make available a limited number of trees to Kettering residents. These trees are offered on a first-come, first-served, shared-cost basis. The trees are available to Kettering residents, businesses, churches and others but will be limited to one tree per person and/or address per year. The trees are planted by the Parks Division with all further maintenance being the responsibility of the owner. Tree varieties offered may change seasonally.

### Registration

Interested Kettering residents or property owners can sign up for a tree in person at the Parks Maintenance Center, 3170 Valleywood Drive from 8 a.m. to 5 p.m., Monday through Friday. Payment will be made at the time of registration.

### Cost and Type of Trees

These trees have been chosen for their high quality, growing habits and appearance throughout the year. They are balled and burlapped.

Serviceberry  
Price: \$135

The Serviceberry represents a number of large shrubs and small multitrunked trees within the genus Amelanchier that provide four-season appeal. In urban landscapes, its spring flowers, summer fruits, fall foliage, and winter zigzag twigs with light gray bark provide year-round interest. The mature spread is 15 feet and the mature height is 20 feet. It grows in full sun to partial shade.

Cleveland Select Pear  
Price: \$135

The Cleveland Select Pear flowers heavily in the spring. Its leaves are a glossy dark green that turn reddish purple in the fall. This tree has wonderful landscape value and is one of the best choices where lateral space to spread is limited. It will grow up to 45 feet high and 16 feet wide. Plant in full sun.

Bur Oak  
Price: \$135

The Bur Oak is the most picturesque of the Oaks of the Midwest, especially in winter. It's fiddle-shaped leathery leaves, huge fringed acorns, thick and sometimes corky twigs, and deeply ridged bark add to its bold texture. It may reach 90 feet tall by 80 feet wide at maturity. It thrives in full sun to partial sun.

### **Planting**

The planting site will be determined by the property owner and Park personnel. The planting will be in an area in the tree lawn or in the area immediately behind the walk. Back and side yard plantings are not allowed. Such obstacles as underground utilities, existing buildings and trees and overhead wires should be taken into consideration. The Parks Division will have the final choice in the location of the planting site. The trees will be planted in the spring or fall depending upon delivery and weather.

### **Guarantee**

Trees will be guaranteed to grow during the growing season immediately following their planting. Spring planted trees will grow that summer and fall planted trees will grow the following summer. The originally purchased tree will only be replaced once. Tree experiencing partial dieback will be handled on an individual basis.

### **Refund Policy**

A 10% charge or \$3, whichever is greater (not to exceed \$10), will be charged to cover processing costs related to a check refund.

If there are any questions, please call the Parks Maintenance Center at 296-2486.
